Thanks! I thought it would be Williamsport, but Craig's group assisted with other data so I wasn't sure....Our attempts to find the diner in the drinking water data system have not been successful, so we're trying through you folks to find the location and official "name" of the place.

Thanks!!

P.S. I have a meeting with ATSDR in about 20 minutes and Bob apparently got a data disk from the residents lawyer so I'll let you know what it has..

Karen – This matter would either be investigated by our oil and gas program in Williamsport or would be handled by the drinking water program in Wilkes-Barre. Our regulations require operators to tell us if they get a water supply complaint. I am not aware of us getting one on this diner.

Jen – can you coordinate with the NERO on this matter? Also, do you have an updated list of who Cabot is providing water to? I wouldn't want to rely on the one we got a year ago.

Craig- We got this complaint about a restaurant in Dimock- Can you send us a list of who else is getting water in Dimock and whether they are public water system??
thanks!

Also- We accepted the settlement with Swamp Angel and should be getting a plugging plan to pass along to you folks for review and then we'll discuss if you/we have any issues with their proposal.

Subject: Re: Springville Diner getting bottled water...what should I do?

In a message dated 11/17/2011 10:52:17 A.M. Eastern Standard Time, I.com writes:

The diner is definitely getting bottled water deliveries and the rumor is the post office and the house connected to the diner are also affected. The Smithfield Cabot well is no more than .25 mile up hill from the diner...just south of Dimock on Route 29. Does the DOH inspect restaurants? What should I do with this information?
